

PCD DRILLS FOR THROUGH HOLES

Fantastic Finish!

Made with steel body and high quality PCD cutting tips, these drills ensure high performance in through holes.

The innovative cutting geometry allows a big chip extraction, increasing tool life. Particularly suitable to work with abrasive materials, with or without coating (MDF, particle board, etc.) The result is perfect holes, with excellent finishing, for the most demanding jobs.

Advantages

- Economic
- Innovative cutting geometry
- Excellent finish
- Optimized chip removal

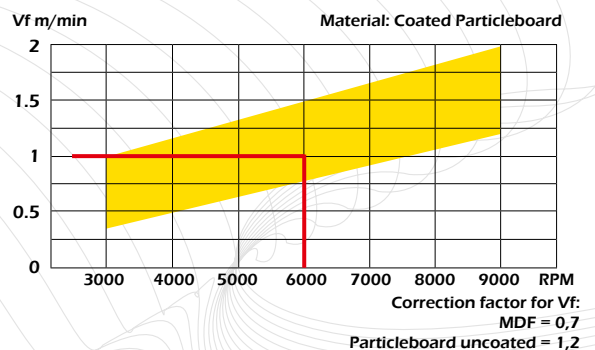

Applications

- Multiboring machines
- CNC machines
- Point-to-point drilling machines
